A BIG SURPRISE ON TEACH. ERS AND TRUSTEES.

On Monday marning, September 4th, the tenchers of our district calmly entered their respective rooms, never thinking that at nine o'clock the children of Spanish Fork had planned (perhaps unwit-(ingly) to take them by storm. In fact they seemed to be unconscious of what was going to happen until they saw all the students in rank and file Quietly did the children march to their various departments until Nine Hundred and Eighty-Five had witnessed the look of wonderment on the faces of their teachers. This look of wonderment was only momentary, for immediately the teachers realized that they had been happily surprised.

Soon the trustees came to enourage the few (they thought) that had the determination to enter school the first week, when to their happy surprise they found that every seat was taken, in fact, they had not completed their visit before they learned that another school must be opened and some sixty new seats provided.

This surprise was indeed pleasing to all concerned, so healthful was it in its nature, and so farreaching in its good results. It is river bridge. Finder bring same mended by the various amusement committees in our city.

Fellow citizens, we know the prime movers in this good work. and we feel to congratulate you all constipated. Mr. Chas. Baldwin on the excellent results you have of Edwardsville, Ill., says, "I suf accomplished. Continue to encourage your children to attend school and stomach troubles for severa the lead. I am informed that we Stomach and Liver Tablets am have by far the largest eighth almost oured."
